

CYNTHIA LAM

Experienced insights and market research lead consultant with a passion for data and data analytics. I have demonstrated history of working in quant/qual with agency and client side environments.

EXPERIENCE

Current
|
2021

- **Senior Analytics Consultant (2022-Jan to present)**
Analytics Consultant (2021-Mar to 2022-Dec)

📍 Sydney

PROSPECTION

- Leading healthcare analytics projects, creating insights from real world data to inform commercial strategy, healthcare governance and best practice.
- Manage the day-to-day decisions, work priorities and resources with a small team.
- Manage and coordinate planning, development and implementation of research, analytics and improvements on services to clients.
- Handling complex projects and data - lead, oversee, conduct analyses, and interpret unstructured data primarily on medication prescriptions, dispensing, procedural benefits across Australia & New Zealand.
- Develop technical solutions to assure representative, real world insights are delivered from data including identifying issues and caveats relating to data sources and analysis methods.
- Research and development on product and creating working prototypes.

2021
|
2018

- **Primary Research Senior Analyst (Research Manager) 2018-Mar to 2021-Mar**
Higher Duties (Research & Data Analytics Manager) 2020-Feb to 2020-Nov

TAFE NSW

📍 Sydney

- In my higher duties position I also managed a small team of analysts.
- Develop research plan aligning research to business goals, ensuring cost effectiveness and efficiency. Also balancing what can be produced in-house versus externally.
- Leading research programs such as B2B & B2C brand trackers, student entry experience and the Voice of Customer program.
- Design, manage and deliver custom reporting tools and dashboards merging multiple data sources to assist in tracking the end to end customer journey into TAFE.
- Coordinate with various stakeholders (ICT, strategy and finance) to identify opportunities to increase efficiency and quality from existing data.
- Influencing data strategy with the current (and ongoing) implementation of new data system at TAFE NSW through identifying key data and business needs (for future and historic reporting), and alignment for insight generation and reporting purposes.
